AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This is in response to the Official Action of September 12, 2000, in connection with the above-identified application. The period for response to this Official Action has been extended to expire on February 12, 2001, by the filing herewith of a Petition for a two-month extension of time and payment of the required fee.

Please amend the above-identified application as follows.

IN THE CLAIMS:

Please cancel claims 1-9 without prejudice or disclaimer and add the following new claims to the application.

B' - -10. A method for regulating the flux of fluid and electrolytes in the intestine of an animal so that 1 ml of blood of said animal will contain at least 0.5 units of antisecretory proteins which comprises feeding the animal a sufficient quantity of a foodstuff prepared from cereals having enzymatic activity.
